the net costs incurred by such governments as a result of the presence of Federal lands that are not within the local tax base

- (b) STUDY.—In preparing the report required by this section, the Comptroller General shall-
- (1) review the authorities and resulting payments under the PILT Act and other laws providing payments to States and units of local government related to the presence of Federal lands within the jurisdiction of recipient units of government, including the extent to which such payments differ because of disparate treatment of lands classed as public domain and those classed as acquired lands;
- (2) assess the adequacy of agency auditing and monitoring, and of the funding for such auditing and monitoring, of the reports required by section 6903(b)(2) of title 31, United
- (3) compare the payments under the PILT Act and other studied laws with-
- (A) the net costs imposed on recipient units of local governments by the presence of Federal lands;
- (B) the tax payments private landowners would likely have paid to recipient units during the same period; and
- (C) services provided to local units of government by Federal land-managing agencies;
- (4) examine how payments under the PILT Act and other studied laws affect and interact with the rates of taxation imposed by local units of government on non-Federal lands, including the extent to which total Federal payments are affected by State laws providing for the distribution to independent entities (other than units of general local government);
- (5) assess the cost and equity of expanding the categories of lands that would be included in the "entitlement lands", as such term is used in the PILT Act, including (but not limited) to Indian trust lands and acquired lands included in the National Wildlife Refuge System;
- (6) identify the extent to which the States make payments to their political subdivisions that are related to the presence within such subdivisions of State-owned lands; and
- (7) examine alternatives to the current system of payments under the PILT Act and other laws, including (but not limited to) methods used by States to make payments to their political subdivisions related to the location of State-owned lands within such subdivisions.

It was decided in the Yeas 160 negative Nays 262
